Support for webmasters and site owners

There are separate sections in our help documentation, which you can access directly from the navigation pane on the left. It provides detailed information on our tools and features. However, we have found some common queries prevalent to using Bing Webmaster Tools, Search Engine Optimization (SEO), link building, redirect management, 404 management, building sitemaps, etc.; Below is a list to cater to the same along with steps to self-diagnose and resolve. We encourage you to use these steps to save your time and get speedy resolutions on the issues faced.

We recommend going through the Bing [Webmaster guidelines](#) to get a comprehensive view of how Bing finds your webpages, processes it and ranks it.

Most popular queries

- › [Why is my site not in the Bing index?](#)
- › [Why is this URL not indexed by Bing?](#)
- › [How can I submit URLs for Bing to crawl?](#)
